Rural awareness programme – 6-02-2021

One day “**Rural awareness programme**” was organised and conducted in Association with Global Association for Scientific Young Mind (GASYM) on 6th Feb., 2021. The programme focussed on inducing interest in agriculture and train them to understand the technology in growing food.

The event was organised at Heragu. The overall execution was carried out by Dr. A. Geetha Kiran A, UBA Coordinator. The team GASYM and faculty members of ME-RIISE educate the individuals on the technology involved in food production. Information on including technologies such as drip irrigation, green houses, waste management and organic farming techniques were deliberated. The attendees were engaged in interactive sessions to discuss various aspects of farming. The overall event was focused on emphasizing the importance of sustainable agriculture practices, such as crop rotation, organic farming, and water conservation. This can help promote environmental awareness and conservation among attendees. Also, the event provided information to the students and villagers on career opportunities in the agriculture sector. This helped encourage young people to consider careers in agriculture and related fields.
